

INTEGRATIVE MANUAL THERAPY (IMT) REGISTRATION FORM

FREE EVENINGS

Integrative Manual Therapy (IMT) is a unique compilation of both diagnostic and treatment techniques, used to assess and treat pain, dysfunction, disease and disability. IMT treatment techniques are manual, and generally involve gentle manipulative techniques to promote tissue repair, normalize structure and restore function.

Each IMT Evening will introduce a new IMT topic, provide an introduction & support to IMT concepts, including critical thinking, diagnostics and advanced techniques. Supervised practice time will be integrated into each evening. IMT evenings will be free of charge and welcome both advanced and new students to IMT.

As a keynote speaker, **Jennifer M. Lewin**, L.Ac.(USA), MAOM, IMT, C. is a licensed Acupuncturist and Herbalist (USA) and Certified Integrative Manual Therapist. Jennifer has been practicing Integrative Manual Therapy (IMT) since 1997, in both the US and Hong Kong. In addition to completing a certification in IMT at the Connecticut School of Integrative Manual Therapy, Jennifer spent several years training under the direct mentorship of Dr. Sharon Weiselfish-Giammatteo, the founder of IMT. In 2003, Jennifer began a Master's degree in Acupuncture (Chinese and Japanese styles) and Herbal Medicine at the New England School of Acupuncture in Boston, USA. In 2007, Jennifer became a licensed Acupuncturist and Herbalist in the US. Jennifer moved back to Hong Kong in 2007 and practices out of Balance Health.

Jennifer is teaching faculty for Dialogues in Contemporary Rehabilitation (DCR) and the Connecticut School of Integrative Manual Therapy (CSIMT), where she teaches IMT seminars in both the US and Hong Kong.

Evening Details

Please if you are interested to join these IMT evenings.

17th July 2008 (Thu)

Motility Testing for Lymph, Liver, Colon and Allergy. A specific and objective hands-on diagnostic tool to discern how foods, products, supplements, herbs, homeopathic remedies, etc. are being utilized and integrated into the body.

23rd September 2008 (Tue)

Identifying allergy related patterns in the body using IMT diagnostics. This evening will also teach and/or review the IDM and DOM techniques to prepare for the Advanced Immune Compromise course.
